Workshop for PhD Students and Young Scientists in Allergology

to discuss your own work with others,
exchange experiences, make contacts

**18th – 20th November 2026
Fraueninsel im Chiemsee**

Allergie im Focus

WORKSHOP FOR PHD STUDENTS AND YOUNG SCIENTISTS
IN ALLERGOLOGY

Allergy on the Isle

18th – 20th November 2026 | Fraueninsel im Chiemsee

Discussing projects and sharing experiences

The „Allergy on the Isle“ workshop is a unique initiative designed to support early-career researchers. Set against the historic scenery of Frauenwörth Abbey on Lake Chiemsee, established scientists from various fields of allergy research meet with participants in small groups to discuss projects and share their insights.

Supported by the DGAKI, this workshop has been organized since 2015 by the Immunology Section together with the DGAKI Junior Members. It offers a constructive forum to present research data and concepts, gain new perspectives for your work and career, explore the many facets of allergy research, and — last but not least — build valuable professional contacts.

Thursday, November 19, 2026

- 08.00 Breakfast
- 09.00 – 09.45
Lecture Prof. Dr. Michaela Schedel
- 10.00 – 12.00
Group Discussion Round I
approx. 10:30 Coffee Break
